

January 23, 2007

Exciting times at HunterCouture; business will proceed as normal with the opportunity to offer HC clients even more of what they have been asking for.due to a high demand for Ladies Wear and the introduction of Mr. Pat Cocco in my life; together we will be offering a new concept to our clients "Formal Wear for the Family". From the inception we have had clients asking for special pieces for their Pets so that has lead to "Pet Seville".

The new downtown chic location will be launched on the 1st of February at 1110 Seymour Street, in the same building as the Black & Lee Formal Wear building. Please see the Press Release for additional information. We specialize and offer Formal Wedding Attire (custom dress or tuxedo for your special posh pet attendant) Gala Evening Wear, Multi-cultural Ceremonial garments, Re-design of Vintage Couture pieces and your standard alteration services.

I would very much like to take this opportunity to thank all of my friends who contributed with their precious time and talent; to the successful (not to mention fun) photo shoot at the University Women's' Club. I am pleased to say that I have way too many friends and supporters to list you all here. You know who you are and give yourself a big hug and pat on the head for an excellent performance.

Please pardon my tardiness over the past 23 days and know that I wish you all a wonderful 2007; may you and your family be blessed with an abundance of love, health & happiness.

Kindly,

Sherilyn
